## Insights

Last year, we started the Noorderlicht Young-project, aiming to connect to a group of passionate and creative young people, engaged in lens-based media. Noorderlicht asked one of the participants of 2020, Alex Murphy, to bring the project to the next level. As a curator, he gathered an international and eclectic group of artists and designers for the 2021 edition, who call themselves Noorderlicht BLOOM. During the Noorderlicht Festival they present the project 'Unhinged' at various locations in the centre of Groningen.

Opening on the 21st of August at 3 pm. On Friday the 3rd of September at 8.15 pm, as the sun sets, the Doorways will be unlocked for night access, hence lights will be turned on for a new atmosphere of the exhibition.

It is possible to freely visit the exhibition from 21.08 to 30.09, no booking necessary.

Check the programme on our website!

In the exhibition, the group members reflect on how their perception of reality has changed since the start of the pandemic. Physical doors have been closed for them, but on the flip side, mental doors have been opened as a result. Using this framework, Noorderlicht BLOOM presents 'Unhinged', a multimedia exhibition consisting of 11 Doorways. Behind each of these eleven doors, the public can indulge in different perceptions of reality.

## About each door

### Info Point

by Alex Murphy.  
Here you can get information about the exhibition, collect the map of the locations and start your visit.

### De tunnel

by Hugo Braams.  
A pandemic year led starting from a blank canvas. Unknowing where this would take me it felt like traversing through an endless void. This work is part of a series of structures to be built from elements derived out of the practice of painting.

### Roots of Disobedience

by Johann Edelmann.  
An installation that deals with societal regulations and the natural thrive for freedom of the individual.

### Casting Time

by Arne Hellwege.  
Will we have enough time to reflect on our time.

### Sonder

by Isabela Manea.  
The interactive Doorway.

### Mind(in)SPACE

by Cezara Gurau.  
An audio visual tour with a destination of 3 scale model installations. INSIGHT, ENTANGLEMENT, EXPANSION - that show how the mind alters the space the physical body is in. By projecting the inner world outwards.

### Residence Box

by Jedidja Smalbil  
Unique weekly interchangeable collaborations.

### The consequences of human negligence

by Sarah Laura Peyrel.  
This installation acts as a key, opening up a door sharing a glimpse of an uncanny future that can only be changed in the present, with nurturing an increase in reason over time.

### منشور (Prism)

by Abiha Naderi.  
An installation for a painting which is about a solid figure contained by two opposite, equal and parallel planes.
